

Features

- Power supply unit for Atigo system;
- Universal AC input/full range;
- Short circuit, overload and over voltage protections;
- Din-rail mounting; DC24V 2.5A output.

Parts & Functions

- N: AC input.
- L: AC input.
- LED: power indicator, always on when plug in power.
- BUS(IM): indoor monitor connection terminal.
- BUS(DS): door station connection terminal.
- Voltage adjustment: 21.6V – 29V

Specification

- Input Voltage: 100~240Vac
- Input Frequency: 50~60Hz
- Rated Output Voltage: DC 24V
- Rated Output Current: 2.5A
- Working Temperature: -20°C~55°C
- SW Port Input Voltage: Max.230Vac, 1.8A
- Dimension: 85*90*50mm
